

Assembly Instructions Lala Bunk Bed

1/7

Safety Advice

Please take the time to carefully read through the whole of these instructions before you commence.

Keep these instructions for future reference.

Unpack, inspect and check off all of the contents.

Please dispose of all packaging safely.

Small component parts could choke a child if swallowed.

We strongly recommend that you keep children well away from the work area.

It would be sensible to lay a sheet or blanket on the floor where you intend to work to avoid scratching this product and to protect your floor.

This product is heavy. Take extreme care when lifting to avoid personal injury or damage to the product.

Assemble the product as close to its intended final position in the room as possible.

Please check the contents of boxes before attempting to assemble this product. A full checklist of parts and fittings is given in page 2 of this instruction leaflet.

HANDY HINT : If you keep the hardware in a bowl during assembly you will be less likely to lose them.

IMPORTANT-READ CAREFULLY-RETAIN FOR FUTURE REFERENCE

WARNING: High beds and the upper bed of bunks beds are not suitable for children under six years due to the risk of injury from falls

WARNING: Bunk beds and high beds can present a serious risk of injury from strangulation if not used correctly.

Never attach or hang items to any part of the bed that are not designed to be used with the bed, for example, but not limited to, ropes, strings, cords, hooks, belts and bags.

WARNING: Children can become trapped between the bed and the wall, a roof pitch, the ceiling, adjoining pieces of furniture (e.g. cupboards) and the like. To avoid risk of serious injury, the distance between the top safety barrier and the adjoining structure shall not exceed 75mm or shall be more than 230mm.

WARNING: Do not use the bunk bed/high bed if any structural part is broken or missing and always follow the manufacturer's instructions.

The largest size of mattress recommended for safe use is 190cm x 90cm with maximum thickness of (6 inch).

Frequent ventilation of the room is necessary to ensure that humidity is kept low and to prevent mould forming in and around the bed.

We strongly recommend regular checks on all assembly fastenings to ensure they are properly tightened.

This bunk complies with BS EN 747-1:2012+A1:2015
